Discover
the potential

Sander has been one of the leading brandl of the industry due to the wide range of products and high production quality.

HPL (compact laminate) is the main material to produce WC cabinets , shower systems, lockers, workbench systems, toilet seperators and HPL table surfaces.

It also offers wide range of colours and models.

We check every detail in production. This gives us total quality management and motivation to reach success in furniture sector.

As a result our company is preferred in many big capacity projects.

Since 2001 we have been improving our quality that helps us increase our customer profile. Due to the customer demands we still improve our product range.

We classified our products in time. Thus we aim to raise the sales of the products that we are specialized. So we kept the leadership in our sector. Sander is a preferred brand in the sector. We also aim to provide an easthetic view to our customer projects.

We proudly completed so many projects with our experienced staff. This is due to three simple principles:

- 1) Never give up from the quality.**
- 2) To complete the Project before deadline.**
- 3) Provide customer satisfaction in any circumstances.**

- For all your needs. One company, one solution.
- 18 years of experience and leadership in sector.
- Consultancy services provided by our sales department.
- Fast response in price offer process.
- High quality materials.
- Wide product range.
- Stylish Creative Development.
- Solutions adaptive to every space and surface.
- Right on delivery time.
- Professional Setup Service and advisory.
